

## Special Issue

# From Harvest to Market: Assessing Sustainability in Wood Industry Management and Operations

### Message from the Guest Editors

Wood, as a natural and sustainable material, holds immense potential in addressing contemporary challenges such as climate change and resource depletion. This Special Issue aims to emphasize the significance of the wood industry within the broader context of sustainable development. It acknowledges the critical role of forests and wood products in global economies and aims to explore sustainable practices across the entire process, from initial harvest to final market distribution. By examining sustainability across the entire wood value chain, from forest management, through production and management, to market distribution, this Special Issue seeks to uncover strategies and innovations that promote environmental responsibility, social accountability, and economic prosperity. It addresses important issues such as deforestation, climate change, and global market demands. Furthermore, it delves into themes such as innovation, digitalization, and impact and regulations, aiming to shed light on the best practices, challenges, and innovative approaches used to achieve the goals of sustainability through empirical studies, theoretical frameworks, and case analyses.

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
