Changes in the Value of Forest Resources: Impacts of Human Activities

Message from the Guest Editors

On 15 August 2005, the Secretary of Zhejiang Provincial Party Committee, Xi Jinping, first made the scientific conclusion that “Lucid waters and lush mountains are invaluable assets” (the “Two Mountains” concept). After being tested both in practice and theory, it has increasingly shown the great power of truth and become a theoretical and practical guide for green development in the new era. This Special Issue intends to deeply understand and analyze the relationship between human socioeconomic activities and natural resources such as forests. We encourage the submission of studies from all scientific fields, including methodological approaches and empirical and case studies, to advance scientific knowledge and promote better public policy making and public awareness. We encourage studies at multiple levels (international, national, regional, community, and individual) as well as those considering spatiotemporal concerns. Interdisciplinary and multidisciplinary investigations are particularly welcome.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
