

Topical Collection

Reviews and Meta-Analyses in Forest Meteorology and Climate Change

Message from the Collection Editors

This Topical Collection aims to collect high-quality **review** and **meta-analysis** papers in the forest meteorology and climate change research fields. We encourage researchers to contribute review papers that highlight the latest developments in their research field according to the topics listed in the section “Forest Meteorology and Climate Change” of this journal or contribute to the understanding of debated aspects in the same fields by performing accurate meta-analyses. Review papers provide concise and precise updates on the latest progress made in a specific area. This Topical Collection welcomes reviews, systematic reviews, and meta-analyses. Well-structured review papers will contribute to consolidating knowledge on forest meteorology and climate change research and would serve as a valuable starting point for further research.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
