

Special Issue

Forest Soil Physical, Chemical, and Biological Properties

Message from the Guest Editors

The soils of tropical and subtropical forest environments have undergone changes in recent years, whether due to human action or the impacts of climate change. Thus, soil attributes (physical, chemical and biological) have been changing in this new context, especially the use and management of forest soils. As such, evaluating the behavior of soil attributes for the production of consumer goods, as well as the provision of ecosystem services, becomes a fundamental demand for the maintenance of agricultural production and the supply of drinking water, carbon sequestration and conservation of this important natural resource. The purpose of this Special Issue is to collate articles that aim to verify the influences of different use and management systems on the attributes of tropical and subtropical soils.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
