Forest Biodiversity Conservation

Message from the Guest Editors

What should the biodiversity of a forest look like? How did it appear before extensive human activities altered these environments? Natural forest landscapes should encompass a diverse range of habitats, including glades to meadows, water bodies, and forest communities at varying successional stages. We seek contributions that investigate changes in alpha, spatial, and temporal beta diversity, including historical and long-term biodiversity dynamics, as well as shifts in the net abundance of communities of any organisms inhabiting a forest landscape. Our Special Issue invites contributions delving into various facets of forest biodiversity:

- Old growth and intact forests;
- Forests in non-forested landscapes;
- Floodplain and coastal forests;
- Forests at different successional stages;
- Forests affected by natural and human-induced impacts.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
