

## Special Issue

# Topicalities in Forest Ecology of Seeds, 2nd Edition

### Message from the Guest Editor

Advancing climate change, forest soil degradation and inappropriate management are weakening healthy trees, causing forests to become less stable and more vulnerable. Knowledge of reproductive material and related topics can help us to better understand how forests work in relation to ongoing climate change. This Special Issue will provide an overview of the most recent advances in the field of seed ecology and its applications in diverse areas by presenting selected contributions on advances in the seeds and fruits of forest species, their morphological and physiological characterization, and many related topics.

Potential topics include, but are not limited to:

- Flowering and pollination of forest trees;
- Seed and fruit quality;
- Forest seed production;
- Seed dispersal;
- Soil seed banks;
- Seed germination and early seedling growth;
- Seed dormancy;
- Seed and fruit predation by animals;
- Perspectives in forest seed technology.

---

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
