Sustainable Management of Forest Stands

Message from the Guest Editors

The sustainable management of forest stands has gained global prominence as the demand for wood, fiber, and other forest products has increased. In this respect, ensuring that these resources are exploited in a balanced way, avoiding imbalances in the ecosystem, has become imperative. Forest stands, encompassing native and exotic species and their management practices, play a crucial role in conserving genetic resources and biodiversity, as well as mitigating the effects of climate change through carbon sequestration. This Special Issue aims to explore the performance of sustainable forest plantations, including silvicultural techniques, forest harvest residue management, ecosystem services, and innovative approaches to ensuring sustainability across rotations. By bringing together cutting-edge research and practical knowledge from experts in the field, we hope to advance our understanding of sustainable forest management.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
