Special Issue

Degradation and Restoration of Tropical Forests

Message from the Guest Editors

Degradation and Restoration of Tropical Forests has emerged as one of the most pressing theoretical and practical challenges for ecologists and conservationists in recent decades. The intricate complexity of restoring landscapes degraded by anthropogenic activities has highlighted the need for a deeper understanding of ecological processes, adaptive management strategies, and the socio-environmental dynamics shaping tropical forest ecosystems. This Special Issue will bring together research and innovative approaches from diverse perspectives, focusing on elucidating patterns and processes at various levels of biological and spatial organization. Studies that explore the impacts of degradation and the outcomes of restoration efforts, including those addressing ecological interactions, biodiversity, and ecosystem functions, are particularly encouraged. It will showcase advancements in technological tools, modeling frameworks, and practical applications that directly contribute to addressing the challenges of Degradation and Restoration of Tropical Forests**.**

Deadline for manuscript submissions

18 December 2025

Forests

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa
Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:
JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
