Forest Biodiversity and Ecosystem Services Under Climate Variation

Message from the Guest Editors

This Special Issue, entitled "Forest Biodiversity and Ecosystem Services Under Climate Variation", aims to explore how changes in climate influence forest biodiversity and, in turn, how biodiversity mediates the resilience and adaptability of forest ecosystems. We welcome original research, reviews, and case studies that examine the relationships between species diversity, functional traits, and the stability of ecosystem services in the face of climate variability. Key topics include, but are not limited to the following: biodiversity–climate interactions, forest dynamics under extreme weather events, adaptive capacity of forest species and communities, and implications for forest management and conservation strategies. By gathering interdisciplinary contributions, this Special Issue seeks to inform policies and practices that enhance forest resilience in a changing climate. For more details on the scope, submission guidelines, and published papers, please visit the Special Issue webpage.

Guest Editors

Dr. Mario Ernesto Suárez-Mota

Division of Postgraduate Studies, Universidad de la Sierra Juárez, Ixtlán de Juárez, Oaxaca 68725, Mexico

Dr. Carles Barriocanal

Department of Geography, University of Barcelona, Barcelona, Spain

Deadline for manuscript submissions

20 February 2026

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
