Economic Assessment Research in Agroforestry Products, Environmental, and Renewable Resources Issues

Message from the Guest Editors

Amidst the pressing need for sustainable development, agroforestry systems have emerged as promising strategies to address food security, poverty alleviation, and environmental degradation. Combining trees with crops or livestock, these integrated farming practices offer a unique opportunity to enhance land productivity, biodiversity, and resource efficiency. However, agroforestry products' full economic potential and environmental impacts remain understudied, limiting their widespread adoption and optimization. This Special Issue aims to bridge this gap by examining the economic assessment research in agroforestry products, focusing on environmental considerations and renewable resource issues. By analyzing the costs, benefits, and risks associated with various agroforestry systems, we seek to inform decision-making processes and contribute to developing more resilient and sustainable agricultural landscapes.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
