

Special Issue

Plant Invasions in Forest Ecosystems: Understanding Arrival, Expansion and Management: 2nd Edition

Message from the Guest Editors

In the 1st Edition of this Special Issue, "Plant Invasions in Forest Ecosystems," we were fortunate to collect multiple excellent manuscripts that explored and advanced the ecological understanding of forest plant invasions. This success is evident in our metrics: over 21,000 total views, an average of 1,945 views per article, and a peak of 5,030 views for the top paper, demonstrating significant global academic interest and visibility. Building on this proven impact, we are now launching the 2nd Edition to continue this success and further bridge the gap between fundamental ecological research and practical forest management. The 2nd Edition invites submissions that deepen our understanding of invasion mechanisms, expansion pathways, interactions with climate change and pests, and applied restoration strategies regarding ecosystem resilience, soil processes, and carbon/hydrological functions. Join us in shaping sustainable management practices and amplifying your research to a highly engaged audience. Submit your manuscript via https://www.mdpi.com/journal/forests/special_issues/9K8IE380FW

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
