

Special Issue

Natural and Anthropogenic Disturbances as Drivers of Forest Ecosystem Change

Message from the Guest Editors

"Natural and anthropogenic disturbances as drivers of forest ecosystem change" is the theme of this Special Issue, which focuses on how forest ecosystems are affected by natural and human-induced disturbances, and the wider implications for forest sustainability and biodiversity. The aim of this theme is to understand how these disturbances affect the structure, function and resilience of forest ecosystems, and to identify strategies for forest management in the face of these disturbances, as well as the potential for regeneration and adaptation. In addition, the interactions between natural and anthropogenic disturbances and their combined effects on forest ecosystems can also be studied, including interactions with insect pests and pathogens. Overall, this will lead to a better understanding of how forests should be managed in the face of disturbances to promote the sustainability and resilience of forest ecosystems.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
