

Special Issue

Forest Dynamics Models for Conservation, Restoration, and Management

Message from the Guest Editors

The Special Issue is dedicated to reporting well-developed forest dynamics models for enhancing the knowledge pertaining to forest conservation, restoration, and management. Well-prepared submissions that cover one or more of the following topics are very welcome. Potential topics include, but are not limited to:

- Individual trees, size classes, and stands modeling in natural and plantation forests;
- Forest dynamics models at different scales in the context of climate change;
- Developed model application for forest conservation, restoration, and management;
- The impact of forest conservation, restoration, and management on tree and stand growth;
- Responses of tree and stand growth to climate change and management planning;
- Dynamic analysis of forest resources and future forest management measures.

Guest Editors

Prof. Dr. Lihu Dong

Key Laboratory of Sustainable Forest Ecosystem Management-Ministry of Education, School of Forestry, Northeast Forestry University, Harbin 150040, China

Dr. Dongsheng Chen

State Key Laboratory of Tree Genetics and Breeding, Key Laboratory of Tree Breeding and Cultivation of State Forestry and Grassland Administration, Research Institute of Forestry, Chinese Academy of Forestry, Beijing 100091, China

Deadline for manuscript submissions

closed (20 October 2023)

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
