Special Issue

Adaptation of the Root System to the Environment

Message from the Guest Editor

This Special Issue aims to unveil, at all levels of investigation (seedling, singletree, and community level, from morphology to molecular), plant response to environmental clues that may trigger root adaptation mechanisms. Innovative research is needed to improve our knowledge on forest ecophysiology and biology; new technologies for root investigation will also benevolently considered. Therefore, we are soliciting full research papers and short communications presenting new findings that will bring advances in forest root research. Due to the high biological variability across tree species and ecosystems, case studies will also be considered for publication.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have Forests be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
