

Special Issue

Assessing, Valuing and Mapping Ecosystem Services

Message from the Guest Editors

The aim of this Special Issue is to promote the debate and the sharing of knowledge and experiences about assessing, valuing, and mapping ecosystem services provided by urban, peri-urban, and forestry systems. We encourage the submission of studies from all scientific fields, including case studies, to promote advancement of scientific knowledge and awareness of information.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.
