

Special Issue

Spatio-Temporal Changes in Forest Bryophyte Diversity: Patterns, Processes and Conservation Applications

Message from the Guest Editors

In this Special Issue, we invite authors to take advantage of this timely framework to address a series of questions related to the spatio-temporal variation of bryophyte species richness, function traits, ecology and evolution in forest ecosystems. We welcome studies on forest bryophytes in all dimensions, including species diversity, functional diversity, and phylogenetic diversity, across different forest habitats, forest types, and forest ecosystems at local and regional spatial-temporal scales. By the investigation, assessment, and monitoring of bryophyte diversity and their dynamic in forest ecosystems, this Special Issue aims to improve our understanding of the ecological significance of bryophytes and their contributions to forest health and sustainability, providing invaluable information for forest managers and conservationists. Potential topics include, but are not limited to:

- Diversity and distribution;
- Ecology and evolution;
- Function traits;
- Physiological ecology;
- Biotic interactions;
- Population ecology;
- Biodiversity conversation.

Guest Editors

Prof. Dr. Xiaoming Shao

Dr. Jian Wang

Prof. Dr. Alain Vanderpoorten

Dr. Ting Shen

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
