

Special Issue

Forest Ecosystem Services and Landscape Design

Message from the Guest Editor

Natural and anthropogenic ecosystems can bring certain benefits to human communities, which humans can use to increase wellbeing. Forest ecosystem services currently play an important role; they are of both direct and indirect interest to specialists from different fields, and are receiving the attention of political decision makers. Knowledge of these forest services has become increasingly important in landscape management, as they may provide solutions for some of the problems of modern society. Landscape is also regarded as an important resource; its efficient valorization could contribute to the increase of environment quality and human communities' wellbeing. The Special Issue, "Forest Ecosystem Services and Landscape Design", encourages the submission of integrated multi- or interdisciplinary contributions related to forestry, including experimental studies, monitoring approaches and models, to promote the knowledge of conservation, as well as the management of forest ecosystems and landscape design. All theoretical, methodological, practical (qualitative and quantitative), GIS and remote sensing research is welcomed.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
