

Special Issue

Aboveground and Belowground Interaction and Forest Carbon Cycling—2nd Edition

Message from the Guest Editors

In this Special Issue of *Forests*, we aim to present the latest advances in the field of aboveground and belowground interactions and biomass surveys in diverse areas, including original studies, synthesis, and perspectives. This Special Issue will place particular emphasis on investigating biomass (and the carbon therein), its turnover in forests, and exploring the responses of forest biomass/productivity to environmental factors. With this aim in mind, we invite the submission of papers detailing advances in techniques and methodologies with respect to forest biomass determination. Potential topics include, but are not limited to:

- Aboveground and belowground interactions in forests;
- Biomass/carbon allocation between above-ground and below-ground;
- Forest productivity and climate change;
- Biomass/carbon turnover in forests;
- Litter production and decomposition;
- Biomass dynamics under forest management;
- Techniques and methodologies for aboveground and belowground biomass determination.

Guest Editors

Dr. Xiaokang Hu

Dr. Jiangling Zhu

Dr. Tao Wang

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
