Phylogenetic Classification and Distribution of Forest Insects

Message from the Guest Editor

As is well known, insects play the role within forests of various biological components. Insects have many functions, such as herbivores, carnivores, decomposers, pollinators, and useful functions, e.g., food for other organisms, natural enemies, and so forth. Additionally, insects are one of the most abundant organisms in forest ecosystems. Thus, it is important to understand and improve our knowledge about the distribution, taxonomy, and phylogeny of forest insects, focusing on various functional groups. We encourage studies from all fields, including taxonomic studies, phylogenetic approaches, and models, to contribute to this Special Issue in order to promote knowledge for the distribution, taxonomy, and phylogeny of forest insects.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
