## Biodiversity and Ecosystem Functions in Forests

### Message from the Guest Editors

Biodiversity is an essential characteristic of forest ecosystems. Unlike other ecosystems, forest ecosystems are characterized by high and stable biodiversity. The functions of ecosystems in forests have been articulated and studied, especially in recent decades. These two characteristics of forest ecosystems form the foundation of current scientific studies, which is why this Special Issue aims to provide an overview of the most recent advances in the field and to offer young or experienced researchers the opportunity to publish their most relevant findings. Potential topics include, but are not limited to, the following:

- Plants or animal biodiversity in forests;
- Interaction between species and environment conditions (climate, including climate changes; air, water, soil, etc.);
- Improving and preserving the genetic diversity of species;
- Policy, science, and practice in the field of ecosystems and landscape;
- Ecology, biodiversity, and forestry management

### Guest Editors

Dr. Gabriel Murariu

Faculty of Sciences and Environment, "Dunarea de Jos" University of Galati, 800008 Galati, Romania

Dr. Lucian Dinca

National Institute for Research and Development in Forestry "Marin Dracea", Eroilor 128, 077190 Voluntari, Romania

### Deadline for manuscript submissions

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
