Special Issue

Non-timber Forestry Breeding, Cultivation and Processing Technology

Message from the Guest Editors

Non-timber forest is an important part of forest resources, integrating economy, ecology and social benefits. Although the theory and application of non-timber forest research have made great progress in recent years, there are still gaps in knowledge for many tree species during the non-timber forest breeding and cultivation and processing technology. We invite submissions for a Special Issue of Forests on the subject of "Non-timber Forestry Breeding, Cultivation and Processing Technology". Topics for submissions may include, but are not limited to:
Non-timber forest resource genetic diversity.
Formation and regulation mechanism of non-timber forest important economic traits.
Regulation mechanism of non-timber forest floral biology.
Gene excavation and function by multi-omics.
Gene editing and molecular design breeding.
Non-timber forest cultivation.
Non-timber forest products storage, quality formation and maintenance.
Non-timber forest products processing and utilization.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa
Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:
JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
