

Special Issue

A Decade of Forests Open Access Publishing

Message from the Guest Editor

Articles will be requested from a call for contributions to this Special Issue "A Decade of *Forests* Open Access Publishing", which was inspired as part of the decennial celebrations for the journal *Forests*. The purpose of the event was to reflect on the past decade's progress in research on forests and forestry, and to identify emerging issues to address over the coming decade. The Special Issue set out to draw on the insights that emerged at this decennial event, and is in line with the aim and scope of *Forests*: From forest ecology and management to forest ecophysiology, from urban forestry to human dimensions and everything in between. Such a context invites a broad array of potential contributions from Editorial Board Members of *Forests* and prestigious scholars and practitioners.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.
