

## Special Issue

# Analysis and Management of Disturbance Effects on Forest Ecosystems

### Message from the Guest Editors

This Special Issue is focused on the effects of disturbances in forests. Historically, disturbances of fire, climate, weather, herbivory, insects, disease, and land use have affected forests. Disturbance regimes have changed over time, resulting in different outcomes and magnitudes of effects. We invite a wide range of submissions that explore disturbance effects on forest composition and structure for different forest types over time and space. Advancements in analyzing outcomes and modeling predictions of disturbance regimes, both natural and altered, will improve the understanding and management of forest ecosystems. The long life spans of trees may result in a lag phase that slows response to disturbance, and disturbances may be confounded or compounded. Submissions may be stand scale studies, landscape models, conceptual works, synthetic studies, or perspectives.

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
