

Special Issue

Management of Family Forests

Message from the Guest Editors

This Special Issue of *Forests* is focused on research related to management of family forests and the behaviour of these forest owners as ultimate decision makers in their forest properties. Research articles may focus on any aspect of forest management that could result in increased material and immaterial benefits to family forest owners, introduction of public or privately funded governance mechanisms that support the increased provision of biodiversity and ecosystem services from family forests as well as owner participation in these programs, and finally related investigations on owner characteristics and opinions. Studies in which comparisons between countries or regions are made with respect to the above mentioned topics, are also welcome.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
