

## Special Issue

# Invasive Forest Species: Strategies for Their Containments

### Message from the Guest Editor

In recent years, biological invasions have been establishing and invading new territories, challenging the sustainability of relevant hosts and ecosystems in both agriculture and forestry. The most invasive alien pests and pathogens that spread into a new environment are mainly introduced by the commercial trade of plants. For these reasons, biosecurity protocols for plant protection have been developed in order to prevent the diffusion and to assist in the eradication of invasive plant pathogens. In this Special Issue are welcome original studies that aim to prevent invasive forest species based on new technological approaches for trapping and detection, as well as methods for large-scale surveillance. Methodological approaches for biological control of invasive pests and pathogens are also welcome.

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
