

Special Issue

Forest Policy and Global Environmental Governance

Message from the Guest Editors

Forest-related governance is fragmented. There is no international forest convention that comprehensively addresses forest-related issues. Currently, forest-related issues are widely discussed under the various international platforms and conventions, such as the High-Level Political Forum on Sustainable Development, the United Nations Framework Convention on Climate Change, the Convention on Biological Diversity, and the United Nations Forum on Forests. The links between forest-related policies at national and local levels, and the concepts and agenda discussed at the international arena (e.g., the sustainable development goals, sustainable forest management, climate change mitigation and adaptation, biodiversity conservation, and nature-based solutions) are becoming increasingly important, while the studies on those links are limited. In this Special Issue, we will invite a variety of studies that analyze the relationships between forest-related policies and global environmental governance, and that address at least one of the concepts and agenda mentioned above.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
