

## Special Issue

# Enhancing Forest Productivity, Value, and Health through Silviculture in a Changing World

### Message from the Guest Editors

This Special Issue of *Forests* is focused on silviculture. We invite the submission of review papers or research articles that focus on any functions of silviculture (regeneration, stand tending, and harvesting) or their combinations, including, but not restricted to the development of new silviculture treatments that will help to adapt forests to climate change, interactions between silviculture and climate, site characteristics, genetics, and biotic pressures, such as browsing or diseases. Studies with a focus on the development of planting material (e.g., species, stock type) or other aspects of forest management (e.g., enhanced forest inventories, wood quality, social license, modeling) should include interactions with silvicultural treatments or systems (e.g., site preparation, fertilization, vegetation management, partial harvest).

### Guest Editors

Dr. Nelson Thiffault

Canadian Wood Fibre Centre, Natural Resources Canada, Quebec, QC G1V 4C7, Canada

Dr. Brad Pinno

Department of Renewable Resources, University of Alberta, Edmonton, AB T6G 2E3, Canada

### Deadline for manuscript submissions

closed (20 February 2021)

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

---

### Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,  
I-25121 Brescia, Italy

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
