

Special Issue

Effects of Environmental Factors and Silvicultural Treatment on Forest Stand Dynamics

Message from the Guest Editor

In a time of climate uncertainty, patterns and processes in the world's forests are undergoing rapid change, some of which we understand and some of which we can only surmise. Managers must make decisions on the fly using the best available science at the time. This Special Issue will present research from alpine, boreal (taiga), sub-boreal, temperate, subtropical, and tropical regions that explores the interaction between environmental influences, including the climate and forest stand dynamics. Research results from long-term studies and shorter experiments are welcome. The main focus of each article should be the interaction between forests and the surrounding environment. Dr. Warren Moser

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
