## Forests Tourism and Recreation

### Message from the Guest Editor

Forests are valuable tourism and recreation resources, attracting billions of visitors worldwide. Forests as tourism and recreation infrastructure contribute significantly to the economic as well as social output to the society. These public benefits are extremely valuable in supporting the community's identity and livelihood and also enhancing the conservation of forest ecosystems and wildlife. Nevertheless, many of these benefits are challenged by seasonality and possible overuse and the use of forests for tourism and recreation purposes might conflict with other forest uses.

Over the years, social science researchers have made great effort to better understand how to manage forests and provide opportunities to obtain the socio-economic and environmental benefits available from forest tourism and recreation experiences.

In this Special Issue, we will cover various research from around the world that critically describes the current issues and challenges of society and update scientific knowledge related to forest tourism and recreation.

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
