Advances in the Sustainable Development and High-Value Utilization of Forestry Resources—2nd Edition

Message from the Guest Editors

Forestry mainly refers to the industry based on forest resources, involving forest harvesting and regeneration, forest protection, forest reconstruction, forest tending, processing, and utilization. With the rapid development of the social economy and continuous improvements in human living standards, the demand for forestry products is also increasing. In addition to developing a low-carbon economy, emerging in response to global climate change, the sustainable development of forestry is particularly important. A considerable number of basic theoretical explorations as well as key technological innovation achievements have been published in forest biology, including new variety cultivation theory and technology, forest resource cultivation theory and technology, forest sustainable management theory and technology, economic forest cultivation and product processing, forest ecology, environmental protection, forest resource protection and utilization, urban forest, etc.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
