Household Energy Consumption and Deforestation Patterns

Message from the Guest Editors

What are the energy consumption patterns of poor households (HH)? How are they changing? What is the contribution of fuelwood harvesting and charcoal production for selling in poverty reduction/alleviation of poor HH? How is charcoal income being distributed along the value chain? How sustainable is charcoal production in relation to forest degradation/afforestation/reforestation processes? How can we effectively measure and keep track of forest degradation caused by woodfuel harvesting? Is the so-called energy transition occurring in some places? Which energy mixes are being adopted? What is the impact of restrictive policies on charcoal, including trading bans, on deforestation/afforestation patterns? Which woodfuels policies, laws, and enforcement and regulatory capacities can contribute to ecological sustainability? How do religious practices, moral arrangements, and spiritual agencies interfere in HH decision-making processes related to forest degradation/afforestation/reforestation processes? How effective can tourism and community-based natural resource management business plans be in generating local revenues? What happens when the charcoal market frontier arrives?

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
