Advances in Forest Restoration and Applied Conservation: Bridging Science and Practice

Message from the Guest Editors

Forests worldwide face unprecedented challenges, including climate change, habitat degradation, and biodiversity loss, emphasizing the urgent need for effective restoration and conservation strategies. In response to global initiatives like the UN Decade on Ecosystem Restoration, researchers and practitioners are advancing innovative solutions to restore forest ecosystems and enhance their resilience. This Special Issue aims to highlight cutting-edge research and applied practices in forest restoration and conservation. We welcome contributions that address theoretical frameworks, empirical studies, and practical applications across diverse forest ecosystems, from tropical to boreal regions. Submissions may include experimental studies, meta-analyses, policy assessments, and interdisciplinary approaches that explore the intersection of ecological restoration, biodiversity conservation, and sustainable forest management.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
