Advances in Sound Absorption of the Forest by Product and Wood-Based Materials and Its Application

Message from the Guest Editor

In this special issue, we welcome the submission of articles on the topic of the sound absorption performance of natural sound absorption materials, such as forest by-products, wood products, and any natural materials. Potential topics include, but are not limited to:

- Natural sound-absorbing material;
- Sound-absorbing material using forest by-products;
- Sound-absorbing material using wood and wood materials;
- Wood modification for permeable pore structure;
- Future perspectives for natural sound-absorbing material.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.
