

# Special Issue

## Forest Landscape Restoration

### Message from the Guest Editors

Restoration of forest landscapes has moved from a small niche within natural management to a dominant activity for biodiversity conservation and improving human wellbeing across the globe. With ambitious global targets for forest restoration, there is need for additional guidance on the concept of forest landscape restoration, planning and prioritizing restoration activities, standards against which restoration achievements can be assessed, and policies and governance structures that encourage consideration of biodiversity from the local to the international level. This Special Issue is designed to clarify the concept of forest landscape restoration and to provide information relevant to achieving global targets and improving biodiversity outcomes. Research articles can focus on any aspect of forest landscape restoration, but must be broadly applicable.

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
