

Special Issue

Forest Management Planning and Decision Support

Message from the Guest Editor

Forests play a crucial role in providing ecological, economic, and social benefits, and effective forest management requires a comprehensive understanding of these benefits and the development of strategies to sustainably manage forest resources. For science, forest management planning and decision support represents a field of innovation and interdisciplinary inquiry, contributing to both practical solutions and theoretical advancements in resource management and sustainability. This Special Issue will explore the integration of decision support with participatory planning and multi-attribute decision-making techniques in forest management. We invite submissions of scientific articles that explore various aspects of forest management planning and decision support. **Topics of interest include, but are not limited to:** - Methodological advancements in forest management planning; - Multiple-criteria decision analysis techniques in forest management; - Practical applications of decision support systems in forest management; - Strategic planning and optimisation; - Remote sensing and planning; - Non-state administration of forests and the challenges thereof.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
