

## Special Issue

# Restoration and Monitoring of Forested Wetlands and Salt Marshes

### Message from the Guest Editors

This Special Issue aims to promote scientific communication and discussion about restoration and monitoring of forested wetlands and salt marshes. The study system of this Special Issue mainly includes forested wetlands, salt marshes, forest swamps, mangroves, and floodplain forests, and research conducted in other types of wetlands is also welcomed. Potential research topics include but are not limited to: 1. Long-term observation and dynamic analysis of forested wetlands and salt marshes;

2. Modeling and simulation of wetlands, wetland monitoring;
3. Engineering design and evaluation of restoration in forested wetlands and salt marshes;
4. Assessment of wetland restoration;
5. Carbon cycling of forested wetlands and salt marshes, wetland succession and global climate change;
6. Carbon measurement and potential carbon sequestration in wetlands;
7. Wetland biodiversity, productivity and restoration of degraded wetlands;
8. Environmental and geochemical processes, hydrological processes in forested wetlands and salt marshes;
9. Restoration and monitoring of ecosystem structure and function in wetlands.

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
