

## Special Issue

# Innovative Techniques for Monitoring and Managing Invasive Forest Pests and Pathogens

### Message from the Guest Editor

This Special Issue will showcase cutting-edge and well-designed approaches to maximising forest pest surveillance efforts, advances in pest understanding and detection technologies that underpin effective surveillance, and evidence-led approaches to pest management on the front line of an invasion. We invite submissions from authors working in the fields of forest pest surveillance design and management. We encourage submissions incorporating primary research data, as well as literature reviews and meta-analyses.

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
