

## Special Issue

# Properties and Uses of Value-Added Wood-Based Products and Composites

### Message from the Guest Editors

Adding value to wood-based products and composites is beneficial on several levels, as they generally offer improved performance, higher profitability, and lower environmental impact compared to alternative non-wood products. The aim of this Special Issue is to collect cutting-edge research focused on value-added wood-based products and composites. To this purpose, we encourage the submission of contributions focused on the ways to add value to them, on their properties and characterization, and on their applications. As an indication, examples of sought-after articles include those dealing with the valorization of low-grade raw wood material, the innovation of manufacturing processes, the addition of specific properties, and the development of new wood-based products and composites.

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
