

## Special Issue

# Trends in the Production, Management and Reuse of Forest Resources: New Uses, New Applications, and Innovation throughout the Entire Production Chain

### Message from the Guest Editors

This Special Issue is oriented toward the publication of works that analyze, from a technical, productive, or economic perspective, the innovation processes that have taken place in recent decades throughout the production chain of wood, cork, resin, and other forest products. The focus of the works can have a historical approach or refer to the current era. Research that addresses present and future trends in forest production will be especially well received. Similarly, this Special Issue aims to be an interdisciplinary framework that brings together technical works, economic and productive analyses, sectoral or regional studies, and even humanistic and historiographical essays, provided that they are closely related to some of the thematic lines proposed in this monographic issue. Climate change, carbon footprint, circular economy, or economic and environmental sustainability are topics with which the works presented for evaluation should explore. However, research that explores new uses and applications of forest resources are equally desirable, especially if the implications derived from them are addressed in the aforementioned terms.

### Guest Editors

Dr. Francisco Manuel Parejo-Moruno

Dr. José Francisco Rangel Preciado

Dr. Antonio Miguel Linares Luján

Prof. Dr. José Álvarez-García

### Deadline for manuscript submissions

closed (28 February 2025)

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
