

Special Issue

Forest Management and Silviculture to Address Phytopathological Threats

Message from the Guest Editors

In this Special Issue of *Forests*, we focus on the interface between forest management and silviculture and forest pathology. We welcome original studies and critical reviews focusing on diseases and risks of diseases in managed forests. All stages of pathogen invasions and relevant interventions, as well as ecological, physiological and genetic studies with links to management practices are of interest. Relevant topics include but are not restricted to:

- management of risks and damage due to invasive pathogens;
- forest restoration and regeneration in stands affected by native or alien pathogens;
- pros and cons of new forest management regimes for forest health;
- new methods to control forest diseases and their integration to management regimes.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.3 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2026).
