Special Issue

Remote Sensing Technology Applications in Forestry and REDD+

Message from the Guest Editors

Recent developments in ground-based sensors have advanced 3D measurements, low-cost permanent systems and community-based monitoring of forests. There still is an urgent need to better understand the options and limitations of remote and close-range sensing techniques in the field of degradation and forest change. We invite scientists working on remote sensing technologies, close-range sensing and field data to contribute to this Special Issue. Topics of interest include (a) novel remote sensing applications that can advance the needs on forest resource information and REDD+ MRV; (b) case studies of applying remote sensing data for REDD+ MRV; (c) timeseries algorithms and methodologies for forest resource assessment at the different spatial scales; (d) novel close-range sensing applications that can support sustainable forestry and REDD+ MRV.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa
Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:
JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
