

Special Issue

Quality and Safety of Forest Products

Message from the Guest Editors

This Special Issue aims to provide an overview of recent advances in the effects of varieties, cultivation practices, pest management and post-harvest treatments on the safety and quality of forest products. In addition, the application of new analytical techniques for analysis and/or risk assessment for forest product safety and quality is also welcome.

Potential topics include (but are not limited to):

Pollutants analysis and nutrient substance analysis in forest products;

Development of novel analytical methods for the analysis of pollutants, nutrients and other components in forest products;

Risk assessment for safety and comprehensive assessment for quality of forest product;

Management of pest and disease that deteriorate forest product quality;

Effect of varieties and planting practices on the safety and quality of forest products;

Effect of pre-harvest and post-harvest treatments on the safety and quality of forest products;

The latest analytical methods for the monitoring of safety and quality of forest products;

Future perspectives for the quality and safety of forest products.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
