

Special Issue

Population Genetic Diversity and Conservation in Forests

Message from the Guest Editors

This Special Issue focuses on the critical role of genetic diversity in forest ecosystems, essential for species adaptation and survival amidst environmental changes. It explores both in situ and ex situ conservation strategies, alongside cutting-edge scientific approaches, to safeguard forest genetic resources. Modern molecular tools, including SSRs, SNPs, and DNA markers, are highlighted for their ability to reveal genetic variations and inform conservation efforts. Geographic Information Systems (GIS) and remote sensing further aid in mapping and managing forest landscapes. With increasing threats to forests, this issue emphasizes the urgent need for genetic conservation through research, management, and community involvement, ensuring the preservation of our forests' genetic heritage for future generations. Potential topics include the significance of genetic diversity, sources of diversity, conservation strategies (in situ, ex situ, seed banks, sustainable management), and the application of molecular and genetic tools.

Guest Editors

Dr. Nevenka Čelepirović

Division of Genetics, Forest Tree Breeding and Seed Science, Croatian Forest Research Institute, HR-10450 Jastrebarsko, Croatia

Dr. Aikaterini Dounavi

Department of Forest Protection, Forest Research Institute of Baden-Württemberg, Wonnhaldestr. 4, 79100 Freiburg, Germany

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
