

Special Issue

Genetic Variation and Conservation of Forest Species

Message from the Guest Editor

The rational use of preserved genetic resources is crucial not only for the forestry sector's economy but also for restoring damaged ecosystems, adaptively maintaining forests, and sustainable landscape management. Enhancing our genetic knowledge and sharing practical conservation experiences will deepen our understanding of forest ecosystem complexity and the specific responses of tree species. For this Special Issue, we encourage submissions that offer new findings or insights into forest genetics and the conservation and utilization of forest genetic resources. Potential topics include, but are not limited to, the following:

- Tree genetics and genomics;
- Adaptation and resilience to changing environmental factors;
- Genetic monitoring;
- Conservation and the use of forest genetic resources;
- The management of conservation units;
- Genetic aspects linked to the restoration of forest ecosystems.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
