

Special Issue

Timber and Construction Structure

Message from the Guest Editors

This Special Issue of *Forests* will present current research from different fields of timber buildings, such as experimental and numerical analysis on the structural stability of multi-story and hybrid timber buildings and structural modeling of composite timber elements, as well as strengthening methods of old timber structures. The second aim of this Special Issue is to emphasize the importance of interdisciplinary and integrative approaches when considering the issue of timber building design. Therefore, topics relating to various architectural aspects of the design of highly attractive timber structures, considering energy efficiency, daylighting, indoor environmental quality, life-cycle assessment, and other parameters, are also welcome.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
