Special Issue

Forest Tree Stress Biology: From Fundamental Research to Emerging Opportunities

Message from the Guest Editors

The objective of this Special Issue in *Forests* is to summarize state-of-art knowledge on Forest Tree Stress Physiology by exploring all players involved in the stress response chain: from the drivers to the mechanisms involved in plant-environment interactions. Moreover, we would like to report if basic plant research discoveries are being translated into technologies or approaches that may improve forestry adaptation and surveillance—a vital issue in meeting the foreseen climate-related challenges. Review articles and original research papers in forest trees related with all forms of biotic and abiotic stress, including plant physiology approaches (from classical physiology to molecular techniques), are welcome.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have Forests be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
