

## Special Issue

# Forest Recreation and Ecotourism

### Message from the Guest Editor

Forest recreation and ecotourism play pivotal roles in promoting sustainable environmental practices and establishing a symbiotic relationship between nature and human engagement. These practices not only offer recreational opportunities but also contribute significantly to the conservation and appreciation of our diverse biodiversity. The synergy between forest recreation and ecotourism lies in their shared commitment to environmental stewardship. By educating visitors about the importance of preserving natural habitats, both practices contribute to the sustainable management of forests. The anticipated benefits of implementing forest recreation and ecotourism extend beyond enhancing the visitors' experience; they ensure the long-term viability of these ecosystems. Forest recreation and ecotourism form a harmonious balance, offering individuals the opportunity to revel in the beauty of nature while actively participating in its preservation. This symbiotic relationship not only enhances the well-being of visitors but also safeguards the long-term health of our planet's invaluable forests.

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
