

Special Issue

Wood Quality and Wood Processing

Message from the Guest Editor

In the current forest scenario, where the quantity and quality of wood are scarce and climate change is a reality, contributing greatly to an ever-increasing risk of forest fires and an increase in pests and diseases, valuing all resources is critical. It is therefore imperative to learn to do more with less; for that, it is necessary to increase productivity and add value to natural resources, consuming less raw material and thus being in perfect alignment with the objectives of the circular economy.

The use of wood for the development of construction products adds value to the original raw material by promoting a use that will contribute to an increase in carbon retention.

This Special Issue plans to give an overview of the most recent advances in the field of Wood Quality and Wood Processing.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
