

Special Issue

Population Dynamics, Behaviour Preference and Habitat Conservation of Forest Birds

Message from the Guest Editors

We are launching this Special Issue, in which we will focus on all potential factors that could affect the population dynamics, behaviour preference and habitat conservation of forest birds. It aims to provide a platform to disseminate new research related to forest birds' :

- (1) breeding strategies and success under different stressors;
- (2) adaptive behaviour influenced by climate change or urbanization;
- (3) activity pattern change caused by other species invasion or human disturbance;
- (4) species distribution dynamics and dispersal patterns at large spatial or temporal scale;
- (5) ecological habits (hunt, prowl, etc.);
- (6) habitat fragmentation and population assemblage;
- (6) how urban infrastructure impacts bird groups; etc. In addition, this Special Issue hopes to promote the dissemination of studies of both single and multiple species.

We encourage integrative research from different levels as well as research combining multiple methods, such as field observation, manipulation experiments, genome sequencing, etc. These results should present evidence of their scientific advantages.

Guest Editors

Prof. Dr. Jiliang Xu

Prof. Dr. Yiqiang Fu

Dr. Kai Song

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
