

## Special Issue

# Quality Requirements of Wood and Bark of Biorefineries and Future Products

### Message from the Guest Editors

Bioenergy and biomass-based products diversify business opportunities in the forest cluster. In particular, biorefineries, which could be integrated into the sawmills and pulp and paper mills, seem to have immense future potential. The raw material quality requirements of wood and bark for future wood processing industries may differ from those for the current industries. For traditional products, like solid wood and engineered wood, high density and strength is appreciated. Pulp and paper products have different quality requirements, including fiber length and low lignin content. This Special Issue welcomes research papers related to the structure and properties of wood biomass that are relevant to a range of wood manufacturing processes, with a focus on bioenergy and biomass utilization. Transportation and storing properties of the feedstock for biorefineries are also included.

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
